

STARS INFANT PROGRAM

Changing lives through quality
intervention!

Call us and schedule your child's
assessment today!

Since all infants are different,
they rarely do the same thing
at exactly the same age. As a
result, it is not unusual for
families to have questions or
concerns about their child's
development. It is important
to keep in mind that all
children develop differently
and at their own pace.

SERVICES OFFERED

Free Baby and Me Classes

Early Intervention (EI)

trained support staff come to your home to
coach you through the skills and techniques
needed to care for a baby with special
needs

Occupational Therapy (OT)

licensed therapists provide gross and fine
motor interventions to help your baby
move and grow

Speech and Language Pathology (SLP)

licensed therapists provide communication
interventions to help your baby interact
with other people

Applied Behavior Analysis (ABA)

trained support staff come to your home to
help your young child 3 years or older
reduce challenging behaviors and learn
coping skills

**We are an ever-growing
organization...**

Established in 2012, Stars Therapy
Services has earned a reputation for
providing high quality, comfortable
and secure early intervention, speech
and occupational therapy to children
from birth to 3 years of age. Our
remarkable interventionists and
therapists are what make our
organization and services one of the
most recognized in California.

Stars Infant Program has been
providing services in Santa Cruz
County as a vendor of the San
Andreas Regional Center since 2015.

Join us at our Parent Support Groups
at the Stars Therapy Clinic in
Watsonville, CA on the last Friday of
the month.
